About Bionano Genomics

Bionano is a genome analysis company focused on structural variation detection. The Company's Saphyr system is a platform for ultra-sensitive and ultra-specific structural variation detection that enables researchers and clinicians to accelerate the search for new diagnostics and therapeutic targets and to streamline the study of changes in chromosomes, which is known as cytogenetics. The Saphyr system comprises an instrument, chip consumables, reagents and a suite of data analysis tools. Bionano data are available through adoption of Saphyr or through services offerings available around the world. For more information, visit www.bionanogenomics.com.
