UNITED STATES SECURITIES AND EXCHANGE COMMISSION Washington, D.C. 20549

FORM 8-K

CURRENT REPORT Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): November 8, 2023

Bionano Genomics, Inc.

(Exact Name of Registrant as Specified in its Charter)

001-38613 (Commission File Number)

26-1756290 (IRS Employer Identification No.)

9540 Towne Centre Drive, Suite 100 San Diego, California (Address of Principal Executive Offices)

92121 (Zip Code)

Registrant's telephone number, including area code: (858) 888-7600

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

□ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)

□ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

Delaware (State or Other Jurisdiction of Incorporation)

Dere-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

D Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class Common Stock, \$0.0001 par value per share Warrants to purchase Common Stock

Trading Symbol(s) BNGO BNGOW

Name of each exchange on which registered The Nasdaq Stock Market, LLC The Nasdaq Stock Market, LLC

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company \Box

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 2.02 Results of Operations and Financial Condition.

On November 8, 2023, Bionano Genomics, Inc. (the "Company") issued a press release reporting its financial results for the third quarter ended September 30, 2023. The full text of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K.

Item 7.01 Regulation FD Disclosure.

As previously announced, the Company is hosting a conference call on November 8, 2023 at 4:30 PM Eastern Time to review its financial results for its third quarter ended September 30, 2023 and to provide a business update (the "Earnings Call"). A presentation to accompany the Earnings Call (the "Corporate Presentation") is attached hereto as Exhibit 99.2. Information contained in the Corporate Presentation may also be used by the Company in future meetings regarding the Company.

In accordance with General Instruction B.2. of Form 8-K, the information contained or incorporated herein, including Exhibits 99.1 and 99.2, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that section, nor shall it be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act, whether made before or after the date hereof, except as expressly set forth by specific reference in such filing to this Current Report on Form 8-K.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits

Exhibit No.	Description
99.1	Press release issued November 8, 2023, reporting financial results for the third quarter ended September 30, 2023
99.2	Corporate presentation, November 8, 2023
104	Inline XBRL for the cover page of this Current Report on Form 8-K

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Bionano Genomics, Inc.

By:

/s/ R. Erik Holmlin, Ph.D. R. Erik Holmlin, Ph.D. President and Chief Executive Officer (Principal Executive Officer)

Date: November 8, 2023

Bionano Reports Third Quarter 2023 Results and Highlights Recent Business Progress

- Q3 2023 revenue was \$9.3 million, which represents a 29% increase over Q3 2022
- Installed base of Saphyr® systems totaled 301 as of September 30, 2023, which represents a 39% increase over the number of systems installed as of September 30, 2022
- Sold 6,176 nanochannel array flowcells in Q3 2023, which represents a 55% increase over the number of flowcells sold in Q3 2022
- Completed an \$80.0 million registered offering and concurrent private placement of senior secured convertible notes due 2025 and warrants
- Conference call today, November 8th, 2023, at 4:30 PM ET

SAN DIEGO, November 8, 2023 (GLOBE NEWSWIRE) — Bionano Genomics, Inc. (Nasdaq: BNGO) today reported financial results for the third quarter ended September 30, 2023.

Business Updates Since the End of Q3 2023

- Completed an \$80.0 million registered offering and concurrent private placement. The sale of (i) \$45.0 million aggregate principal amount of senior secured convertible notes due 2025 and warrants to purchase 21,660,650 shares of our common stock in a registered offering, and (ii) \$35.0 million aggregate principal amount of senior secured convertible notes due 2025 in a concurrent private placement to an accredited investor closed on October 13, 2023.
- Implemented initiatives intended to further reduce headcount, manufacturing costs and operating expenses for an estimated savings starting in 2024 of approximately \$33.0 million.
- Reiterated full year 2023 revenue guidance of \$35.0 to \$38.0 million.

Q3 2023 Highlights

- Installed base of Saphyr® systems totaled 301 at the end of the third quarter 2023, which was an increase of 20 systems over the second quarter of 2023 and represents a 39% increase over the 217 installed systems reported at the end of the third quarter of 2022.
- 6,176 nanochannel array flowcells sold during the third quarter, which represents an increase of 55% over the 3,975 flowcells sold during the third quarter of 2022.
- Initiated early access program for Stratys[™] system, with 10 systems available for key customers as part of an early access program before the full commercial release of the product in early 2024.
- VIA[™] software, with a workflow for hematological malignancy research, began installations at the end of July 2023, which are ongoing, while development has continued toward an application for whole genome/constitutional analysis research.
- Customers Praxis Genomics and Augusta University received an approved gap fill rate of \$1,863.22 for their optical genome mapping (OGM) Proprietary Laboratory Analysis (PLA) codes for hematological malignancy testing from Centers for Medicare and Medicaid Services (CMS).
- Appointed Gülsen Kama as the company's chief financial officer (CFO), effective September 11, 2023. Ms. Kama has an extensive background in business planning and execution, especially in
 operating environments that demand rigorous management of expenses to enable profitable growth.
- Announced that two original equipment manufacturing (OEM) partners in China, A-smart MedTech and Ecobono, obtained reagent class I registrations from China's National Medical Products
 Administration (NMPA) for Bionano's DNA extraction kit and labeling products for use in in vitro diagnostics (IVD), which allow the companies to market these products to hospitals and independent clinical
 labs in China.
- Participated at the Cancer Genomics Consortium (CGC) 2023 Annual Meeting with a broad range of content covering the utility of OGM for solid tumor and hematological malignancy cancer research, including 13 scientific platform and poster presentations from Bionano, a panel discussion on the integration of OGM for clinical research in cancer, featuring cancer genomics experts Dr. Ravindra Kolhe, Augusta University, Dr. Susan Crocker, Kingston Health Sciences Centre/ Queen's University, and Dr. Sachin Jadhav, HCG Network, and a user group event for the Company's new VIA software.
- Publications featuring OGM increased 61% from the third quarter of 2022 to the third quarter of 2023, including a total of 47 human-focused publications. The number of publications on rare diseases
 through the first three quarters of 2023 is up 172% compared to the number of publications through the first three quarters of 2022, with an increasingly large average number of samples per study.
- · Key studies published during Q3 that outline support for OGM's utility for cancer and genetic disease research and in cell therapy quality control applications:
 - A publication in Nature Communications demonstrated the utility of OGM as an alternative to karyotyping (KT) and chromosomal microarray (CMA) for the evaluation of CRISPR-Cas9 edited human induced pluripotent stem cell (iPSC) lines to uncover possible pathogenic structural alterations that may limit their usefulness for stem cell therapy. Using OGM, the study authors found that approximately 15% of CRISPR-Cas9 edited genomes had potentially pathogenic large chromosomal deletions at unexpected off-target sites. The study authors additionally found a large, unexpected deletion at the target site.
 - Researchers at the German Cancer Consortium (DKTK) highlighted the utility of OGM and whole-exome sequencing (WES) in better understanding the mutational landscape of pediatric B-cell
 precursor acute lymphoblastic leukemia (BCP-ALL). The combined workflow of OGM and WES identified 19 recurrently altered regions with novel potential leukemic drivers as well as double hits of
 structural variants (SVs) and single-nucleotide variants (SNVs) in the same sample, demonstrating the power of using that combined workflow to identify compound events relevant to risk
 stratification and treatment of hematological malignancies.
 - The first peer-reviewed benchmarking study to compare OGM to chromosomal microarray analysis (CMA) evaluated the potential of OGM to measure all classes of variant types covered by CMA, including gains, losses, aneuploidy, triploidy and absence of heterozygosity, in indications including unexplained developmental delay/intellectual disability (DD/ID), autism spectrum disorders (ASD), and multiple congenital anomalies (MCA). OGM was 100% concordant with CMA for the detection of pathogenic variants, and the study authors found that the higher resolution of OGM allowed for better refinement of the structure of the genome compared with CMA alone.

"We are pleased with our Q3 2023 results, which demonstrate steady growth across the install base and flowcells sold," commented Erik Holmlin, PhD, president and chief executive officer of Bionano. "We believe that the momentum we see building over the past year provides validation that our strategy is working. It

was important to complete the recent convertible debt financing to extend the company's cash runway, which we believe will allow us to continue to advance critical products and develop our target markets to realize the full potential of OGM. We believe that the cost savings initiatives and operational efficiencies we recently implemented will play a role in leading the company to profitability."

Q3 2023 Financial Highlights

· Total revenue for the third quarter of 2023 was \$9.3 million, an increase of 29% compared to the third quarter of 2022.

- GAAP gross margin for the third quarter of 2023 was 30%, compared to 25% from the third quarter of 2022. Third quarter 2023 non-GAAP¹ gross margin was 32%, compared to 25% from the third quarter of 2022. Third quarter 2023 non-GAAP¹ gross margin was 32%, compared to 25% from the third quarter of 2022. Third quarter 2023 non-GAAP¹ gross margin was 32%, compared to 25% from the third quarter of 2022. Third quarter 2023 non-GAAP¹ gross margin was 32%, compared to 25% from the third quarter of 2022. Third quarter 2023 non-GAAP¹ gross margin was 32%, compared to 25% from the third quarter of 2022. Third quarter 2023 non-GAAP¹ gross margin excludes \$0.2 million in stock-based compensation.
- Third quarter 2023 GAAP operating expense was \$116.0 million, which includes \$84.1 million in GAAP-only charges, compared to \$34.0 million in the third quarter of 2022, which included \$7.6 million in GAAP-only charges. Third quarter 2023 non-GAAP operating expense was \$31.8 million, compared to \$26.3 million in the third quarter of 2022 and \$34.6 million in the second quarter of 2023.
- Third quarter 2023 non-GAAP operating expense excludes the \$77.3 million one-time impairment charge related to revaluation of goodwill, \$3.8 million in stock-based compensation, \$1.8 million in amortization of intangibles, \$0.9 million in one-time financing expenses, and a \$0.3 million increase in the estimated fair value of the contingent consideration primarily related to the acquisition of Purigen Biosystems.
- Cash, cash equivalents, and available-for-sale securities were \$63.6 million as of September 30, 2023, compared to cash, cash equivalents and available-for-sale securities of \$77.1 million as of June 30, 2023.

Gülsen Kama, chief financial officer at Bionano, added, "I am happy to be onboard at Bionano and look forward to contributing to the strategic financial planning and reporting that will be critical for us to achieve profitability. I believe we have already taken some important steps in that direction with the convertible debt financing and the cost reduction initiatives we have put in place."

Webcast Details

Date:	Wednesday, November 8th, 2023
Time:	4:30 p.m. ET

Webcast Link:	https://edge.media-server.com/mmc/p/xoj2hwr3

Participants should register at the link above in advance of the call, and then click the webcast link before the call begins. An archived version of the webcast will be available for replay in the Investors section of the Bionano website.

¹Non-GAAP gross margin and operating expense are non-GAAP financial measures. For a description of these non-GAAP financial measures, please refer to "Non-GAAP Financial Measures", and for a reconciliation of non-GAAP cost of revenue and operating expense to cost of revenue and operating expense reported in accordance with GAAP, please refer to the financial tables accompanying this release.

About Bionand

Bionano is a provider of genomic analysis solutions that can help reveal answers to challenging genetic questions. Our mission is to transform the way the world sees the genome through optical genome mapping (OGM). Our OGM solutions allow scientists and clinical researchers the ability to see and discover structural variations in a way unmatched by traditional cytogenetic techniques. Our products additionally include an industry-leading, platform-agnostic software solution, which integrates OGM, next-generation sequencing and microarray data in one consolidated view, and nucleic acid extraction and purification solutions using proprietary isotachophoresis (ITP) technology. Our Lineagen, Inc., d/b/a Bionano. Laboratories, business provides diagnostic testing for patients with clinical presentations consistent with autism spectrum disorder and other neurodevelopmental disabilities. To learn more, visit bionano.com and connect with us on Twitter, LinkedIn, Instaaram, and YouTube.

Unless specifically noted otherwise, Bionano products are provided for Research Use Only. Not for use in diagnostic procedures

Non-GAAP Financial Measures

To supplement Bionano's financial results reported in accordance with U.S. generally accepted accounting principles (GAAP), the Company has provided non-GAAP gross margin and non-GAAP operating expense in this press release, which are non-GAAP financial measures. Non-GAAP operating expense excludes from GAAP reported operating expense the following components as detailed in the reconciliation table accompanying this press release: impairment charge, stock-based compensation, amortization of intangibles, financing charges and change in fair value of contingent consideration. Non-GAAP gross margin excludes from GAAP reported gross margin stock-based compensation as detailed in the reconciliation table accompanying this press release.

Bionano believes that non-GAAP gross margin and non-GAAP operating expense are useful to investors and analysts as a supplement to its financial information prepared in accordance with GAAP for analyzing operating performance and identifying operating trends in its business. Bionano uses non-GAAP gross margin and non-GAAP operating expense internally to facilitate period-to-period comparisons and analysis of its operating performance in order to understand, manage and evaluate its business and to make operating decisions. Accordingly, Bionano believes these measures allow for greater transparency with respect to key financial metrics it uses in assessing its own operating performance and making operating decisions.

These non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures; should be read in conjunction with the Company's consolidated financial statements prepared in accordance with GAAP; have no standardized meaning prescribed by GAAP; and are not prepared under any comprehensive set of accounting rules or principles. In addition, from time to time in the future, there may be other items that the Company may exclude for purposes of its non-GAAP financial measures; and the Company may in the future cease to exclude items that it has historically excluded for purposes of its non-GAAP financial measures. Likewise, the Company may determine to modify the nature of its adjustments to arrive at its non-GAAP financial measures. Because of the non-GAAP financial measures as used by Bionano in this press release and the accompanying reconciliation table have limits in its usefulness to investors and may be calculated differently from, and therefore may not be directly comparable to, similarly titled measures used by other companies.

For a reconciliation of non-GAAP gross margin and non-GAAP operating expense to gross margin and operating expense reported in accordance with GAAP, please refer to the financial tables accompanying this release.

Forward-Looking Statements of Bionano Genomics

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "believe," "estimate," "expect," "may," "will" and similar expressions (as well as other words or expressions referencing future events, conditions or circumstances) convey uncertainty of future events or outcomes and are intended to identify these forward-looking statements include statements regarding our intentions, beliefs, projections, outlook, analyses or current expectations concerning, among other things: the utility of OGM for cancer and genetic disease research and for cell therapy quality control applications; our ability to maintain continued year-over-year quarterly revenue growth; our achievement of our full year revenue guidance for 2023; our ability to execute on our strategy and achieve our bojectives; the impact and utility of our cost savings initiatives and recent cost saving actions, including the expected amount and timing of cost savings, anticipated improvements in gross margin and ability to become profitability; our expectations regarding product uptake, revenue growth, market development and increased OGM adoption, including through publications highlighting the utility and applications of OGM; the timing of the full commercial release of the Stratys mapping system; our growth prospects and future financial and operating results, including our compound annual growth in revenues; the growth of our installed optical genome mapping system base; the sales of our flowcell consumables and the other expectations related thereto; our ability to metros, prospects and potential market oportunity for structural variation analysis and OGM; continued research, presentations and potential future events. Actual results or developments may differ materially from those projected or implied in these forward-looking statements. Factors that may cause such a difference include the risks and uncertainities associated with: the timing and amount of revenue we are

Legal Disclaimer

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "may," "will," "expect," "plan," anticipate," "estimate," "intend," "should," "believe," "would," "could," "potential," "outlook," "guidance," "goal" and similar expressions (as well as other words or expressions referencing future events, conditions or circumstances and the negatives thereof) convey uncertainty of future events or outcomes and are intended to identify these forward-looking statements. Forward-looking statements regarding our intentions, beliefs, projections, outlook, analyses or current expectations concerning, among other things: (i) growth drivers and expected levels of our organic growth, including anticipated growth of installed base; (ii) the impact of our investment in R&D and commercial and educational initiatives, including timely and successful launch of our next-gen OGM system and the timing of our planned product developments and clinical study results and milestones; (iii) anticipated goals and milestones, including the 2023 ELEVATE! strategy, our anticipated 2023 milestones, and our 4 Strategic Pillars; (iv) our ability to stay in front of competitors' improvements in technologies; (v) our estimates of anticipated market opportunity and underlying assumptions; (vi) our quarterly and annual revenue outlook; (vii) the anticipated benefits and ultimate success of our collaborations; and (viii) other statements that are not historical facts.

Each of these forward-looking statements involves risks and uncertainties. Actual results or developments may differ materially from those projected or implied in these forward-looking statements. Factors that may cause such a difference include the risks and uncertainties associated with: (i) the impact of global and macroeconomic events, such as recent and potential future bank failures, and the ongoing Ukraine-Russi and Israel-Hamas conflicts and related sanctions, on our business and the global economy; (ii) challenges inherent in developing, manufacturing and commercializing products; (iii) our ability to further deploy new products and applications and expand the markets for our technology platforms; (iv) third parties' abilities to manufacture our instruments and consumables; (v) our expectations and beliefs regarding future growth of the business and the markets in which we operate; (vi) the accuracy of our estimates; (vii) our ability to fund our operations and beliefs regarding future growth of the business and success of our clinical studies; (ix) the timing and mix of customer orders among our products; (x) the success of products competitive with our own; (xi) our ability to integrate our recently acquired business into our strategic plan; (xii) changes in our strategic and commercial plans; and (xiii) the sapplication of generally accepted accounting principles which are highly complex and involve many subjective assumptions. We are under no duty to update any of these forward-looking statements after the date of this presentation to conform these statements to actual results or revised expectations, except as required by law. You should, therefore, not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this presentation. Moreover, except as required by law, neither we nor any other person assumes responsibility for the accuracy and completeness of the forward-looking statements contained in this presentation.

More information about these and other statements, risks and uncertainties is contained in our filings with the U.S. Securities and Exchange Commission, including, without limitation, our Annual Report on Form 10-K for the year ended December 31, 2022 and in other filings subsequently made by us with the Securities and Exchange Commission. All forward-looking statements contained in this presentation speak only as of the date on which they were made and are based on management's assumptions and estimates as of such date. We do not undertake any obligation to publicly update any forward-looking statements, whether as a result of the receipt of new information, the occurrence of future events or otherwise except as required by law.

Non-GAAP Financial Measures

To supplement Bionano's financial results reported in accordance with U.S. generally accepted accounting principles (GAAP), the Company has provided non-GAAP gross margin and non-GAAP operating expense in this presentation, which are non-GAAP financial measures. Non-GAAP operating expense excludes from GAAP reported operating expense the following components as detailed in the reconciliation table accompanying this presentation: impairment charge, stock-based compensation, amortization of intangibles, financing charges and change in fair value of contingent consideration. Non-GAAP gross margin excludes from GAAP reported gross margin stock-based compensation as detailed in the reconciliation table accompanying this presentation.

Bionano believes that non-GAAP gross margin and non-GAAP operating expense are useful to investors and analysts as a supplement to its financial information prepared in accordance with GAAP for analyzing operating performance and identifying operating trends in its business. Bionano uses non-GAAP gross margin and non-GAAP operating expense internally to facilitate period-to-period comparisons and analysis of its operating performance in order to understand, manage and evaluate its business and to make operating decisions. Accordingly, Bionano believes these measures allow for greater transparency with respect to key financial metrics it uses in assessing its own operating performance and making operating decisions.

These non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures; should be read in conjunction with the Company's consolidated financial statements prepared in accordance with GAAP; have no standardized meaning prescribed by GAAP; and are not prepared under any comprehensive set of accounting rules or principles. In addition, from time to time in the future, there may be other items that the Company may exclude for purposes of its non-GAAP financial measures; and the Company may in the future cease to exclude items that it has historically excluded for purposes of its non-GAAP financial measures. Likewise, the Company may determine to modify the nature of its adjustments to arrive at its non-GAAP financial measures. Because of the non-standardized definitions of non-GAAP financial measures, the non-GAAP financial measures as used by Bionano in this presentation and the accompanying reconciliation table have limits in its usefulness to investors and may be calculated differently from, and therefore may not be directly comparable to, similarly titled measures used by other companies.

For a reconciliation of non-GAAP gross margin and non-GAAP operating expense to gross margin and operating expense reported in accordance with GAAP, please refer to the financial tables accompanying this presentation.

Corporate Updates

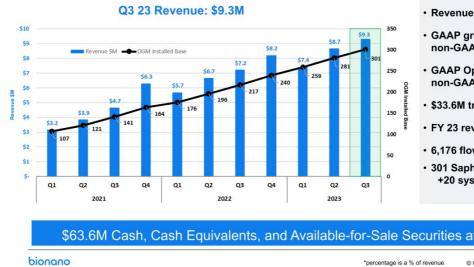

- Appointed Gülsen Kama as the company's chief financial officer (CFO), effective September 11, 2023
- Company took significant steps to reduce operating expenses and extend cash runway, in an effort to shorten the path toward profitability

ELEVATE! Anticipated Milestones

2023

Planned Product Developments

- 1 Commercial version of high throughput OGM system in the field
- ✓ Commercial release of VIA[™] software for OGM heme .
- Launch high throughput compute solution for OGM, developed in collaboration with NVIDIA
- ✓ Bionano Laboratories to launch laboratory developed tests for constitutional genetic disease

Clinical Studies

- 1 Peer reviewed postnatal interim publication ✓ Receive IRB approval for solid tumor
- study

Reimbursement

. Submit LCD dossier for OGM coverage to Medicare

2H

- **Expand OGM Installed Base**
- Installed base of 325 OGM systems

Planned Product & Regulatory Developments Commercial release of VIA for whole

- genome/constitutional disease ✓ Preliminary pre-submission discussion with FDA Pre-commercial version of OGM kits for Ionic in the field
- ✓ CAP inspection for accreditation of Bionano Laboratories

Clinical Studies

- Complete enrollment of prenatal study, 60% complete data collection
- ✓ Complete 50% of heme study enrollment
- · Interim publications on prenatal and heme studies
